

During the current partial school closures, BT are offering a limited number of free Wi-Fi voucher codes for us to give to those pupils who need it.

If you are not able to get online to access your schoolwork on Google Classroom, we can help!

Please contact us on [office2@yaptonschool.org.uk](mailto:office2@yaptonschool.org.uk) and we will send you a username and password, along with a 'get started guide' which will allow you to log in to BT's Wi-Fi hotspot network.

*Please make sure you read the 'get started guide' so that you can follow the set – up process. It is important that all of the steps in this guide are followed in the right order to avoid unnecessary technical issues.*

*The following video also explains how to connect to the Internet with your voucher*
